ConteraWS®

Web Services

- Cloud-based centralized management system
- Avoids the pitfalls of cloud-based video storage by recording locally for increased performance & reliability
- Export video to the cloud to store & share using secure links
- Connect from anywhere via full featured thick client, mobile apps, Apple TV app, or multi-browser web client
- User permissions & groups managed in the cloud
- Remote monitoring with instant notification of alarms, motion, or system health to desktop or mobile devices
- Eliminate cybersecurity risks of open inbound ports with no client side programming, supporting multi-factor authentication, NIST-compliant data encryption, & transport layer security
