MADE IN USA COMPLIANCE

Most Arecont Vision Costar, LLC (AV Costar) products are *Made in USA* qualified and may be treated as domestic end user product for purposes of the *Buy America Act* {41 USC §§ 8301 - 305}.

Many AV Costar products are also *FTC Made in USA compliant*, and are also compliant with the *Presidential Executive Order on Buy American and Hire American* (April 18, 2017).

We are an American company. AV Costar is a manufacturer of video surveillance devices, with product development, engineering, final assembly, quality control, technical support, and back office functions at facilities in Los Angeles and Fresno counties, and headquartered in Glendale, California. The company is a business unit of [Costar Technologies, Inc.](#) (OTC Markets: CSTI), based in Coppell, Texas.

Specifics of our Made in USA qualified and non-qualified products are listed below.

COMPLIANT PRODUCTS

Megapixel Cameras

AV Costar MegaIP® series single-, dual-, & multi-sensor megapixel cameras, including the **MegaBall®**, **MegaDome®**, **MegaVideo®**, **MegaView®**, **MicroDome®**, and **SurroundVideo®** families, are qualified as Made in USA.

MegaIP camera models qualify with 51 - 65% USA origin, varying in the mix of electronics, optics, and mechanical hardware per model.

- **PCB Assembly Labor:** All electronics sold in the qualifying MegaIP series contain 100% US assembly labor by virtue of their assembly in Los Angeles County, in the State of California, and with programming at our Duarte, California manufacturing facilities.

- **Final Assembly Labor:** The MegalP series assembly qualifies as 100% US assembly labor performed at our Duarte, California manufacturing facilities.
- **Research and Development:** All hardware and software research, digital design, firmware design, and development work for the MegalP series camera family is performed in the United States of America at our Glendale, California headquarters and development center, Duarte, California manufacturing facilities, or at the Costar Technologies, Inc. Advanced Technology Center in Clovis, California.

Some exceptions do apply; see the NON-COMPLIANT PRODUCTS list for specific models.

Video and Camera Software

The AV Costar ConteraVMS® video management system and ConteraWS® web services software families are designed and manufactured in the United States of America.

The AV Costar ConteraMobile® app for smartphones and tablets (iOS and Android), ConteraSysCon™ System Configurator, API, and MegalP camera user interface software (camera webpage) are designed and manufactured in the United States of America.

Video Recorders, NVRs, and Servers

AV Costar ConteraCMR® series Compact Desktop NVR Server, Compact NVR Server, and High-Performance NVR Server models are designed and manufactured in the United States of America.

NON-COMPLIANT PRODUCTS

Megapixel Cameras

AV Costar ConteraIP® single- and multi-sensor cameras are based on our designs & specifications and include our user interface (onboard camera web page) and API, however they are assembled outside the United States of America.

Video Recorders, NVRs, and Servers

The entry-level AV Costar ConteraCMR series NVR Appliance is designed and assembled outside the United States of America to our specifications.

Camera Accessories

AV Costar camera accessories, including all stand-alone housings, mounts, and lenses, are of 100% foreign origin to our specifications.
