

February 28, 2020

[Arecont Vision Costar, LLC](#) (AV Costar) is a US-based manufacturer of video surveillance devices, with product development, engineering, final assembly, quality control, technical support, and back office functions at facilities in Los Angeles and Fresno counties, and headquartered in Glendale, California. AV Costar is a business unit of [Costar Technologies, Inc.](#) (OTC Markets: CSTI), based in Coppell, Texas.

Our MegaIP® series cameras, SurroundVideo® series multi-sensor cameras, certain ConteraIP® series cameras, ConteraCMR® video recorders and servers (excluding the NVR appliance model), and associated parts and components have no association with any company banned per provisions of the National Defense Authorization Act (H.R. 5155). NDAA H.R. 5155 bans the federal government from purchasing equipment from certain Chinese vendors due to security concerns and surveillance equipment for the purposes of national security.

Our MegaIP and SurroundVideo series cameras are designed and manufactured in the United States of America and may be treated as domestic end products for purposes of the *Buy American Act*, 41U.S.C. §§ 10-10d (“BAA”).

If you require additional information or a complete listing of the models contained within the above series of products, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read 'B. Donaldson', with a long horizontal flourish extending to the right.

Brad Donaldson, Vice President of Product Development, Arecont Vision Costar, LLC
